Field Target Match Review **EFTCC@DCPA 1/26/2003** - Mid/Winter Off-Hand Only Match

This has been our 4th year running the Mid/Winter Off-Hand Only match and it has been our highest attend match to date. We had 24 shooters including 4 juniors. 1st time shooters with us were Bill Pratt, Mike Cohen and junior shooter Andrew McGee. The Juniors were all excited about the first match that would count for the Junior Club Championship Plaque and the 3 Field Target Prizes that go to the 2 top Juniors at the end of the season. I overheard a few of them already picking out which of the 3 Field Targets they wanted to claim. The season has a long way to go but it is good to see them so interested. Hopefully more juniors will join into the fray that will end at the last match of the Season, the NY State Championship.

EFTCC takes great pride in attempting to open up Field Target to a variety of shooters and there equipment. We have made sure that our targets will function properly when hit with a 10 meter gun all the way out to 55 yards. This can be seen by the accomplishment Paul Bishop made by missing only 2 shots through out the entire match shooting a stock P70JR at 565 FPS with FTS pellets for 6.1 FTLBs. (Paul graciously asked to not have his score counted just as Hans and Ray didn't count their scores) Even Paul was surprised when he

knocked down the 45 yard Crow that only fell 9 times out of the 48 that it was shot at throughout the match. The other low powered shooter that toppled that target was Jock Elliott with an R7 shooting 615 FPS with FTS pellets for 7.2 FTLBs. That longest target at the match fell 19% of the shots fired upon it and 22% of the time that the target fell was from low powered shooters. This builds a lot of confidence in the shooters as can be noted by the 4 adults and 2 Juniors that chose to shoot low powered guns even though many of them had Higher powered equipment. 3 R7s, a stock P70JR, HW30, and a QB79 CO2 10 meter gun were successfully used during the match. Take a closer look at Bob Ford's score and Equipment. Not only did he shoot low power but he shot with a fixed 3x21 power scope and his score still stayed way up in the pack. Just check out the scores by those shooters.

Other notables were that there were no Cold Lines, and the only target that came in question was from the first shot on a target. When I told the shooter to look for a split on the face through the scope, he clearly noticed the mark on the rim of the Face of the Hole. That is when he realized that a split can take paint off the center of the Kill Zone making you think that you had a clean hit when indeed he didn't.

A special thanks to Tom Owen and Paul Cray who helped us setup the match the day before and dig the targets deep into the snow. When the targets were down they were completely gone but there were clear views of all of the KZs no matter what the height of the shooter when they were up.

The White Snow Shoe Rabbits we put out were not as invisible as I thought they would be especially after a few people missed them.

Also thank you to all those that helped pick up the targets at the end of the match. It sure goes quickly with all those extra hands.

We used timers through out the match and everything moved very nicely. Everyone finished at almost the same time so there was no waiting at the end for any one squad as has happened in the past. No One timed out so the timers are really becoming a non issue as the shooters are getting more accustomed to shooting on the clock.

The awards were handed out and everyone was on there way by 1:30 in plenty of time to get home for the Super Bowl.

So if you have a gun that you shoot well. It doesn't matter the amount of power that it has or even the scope that you have on it. You can have a great time and can successfully shoot a Field Target match with us so..... Come on out and give it a go.

The Junior Club Champion Stats, Full match results with Post Match Stats and pictures of the shooters can be found on the "A" Team's Web Site: (<http://www.bestweb.net/~ateamray/EFTCC Match Library.htm>)

The EFTCC Photo albums can be found at the following URL: <http://community.webshots.com/user/eftcc>

The EFTCC Field Target Match schedule for the year 2003 is as follows: **April 13th, 2003 - Sunday / June 1st, 2003 - Sunday / August 9th & 10th, 2003 – Saturday & Sunday** ~ North East Regionals / **November 16th, 2003 - Sunday** ~ New York State Championship.

Particulars can be found on the "A" Team's Web Site. (<http://www.bestweb.net/~ateamray>)
